We are committed to continually improve and promote sound environmental practice and this philosophy is set out within the club's Environmental Policy.

We recognise that our activities potentially affect our surroundings and we are fully committed to playing our part in the preservation of natural resources and in preventing environmental pollution.

Our approach to our environmental responsibilities is the same as our approach to all other business objectives; we aim to be seen as a blue print for best practice and success and our environmental management is integral to this vision.

Our overall objective is to carry out our operations in a way which manages and minimises any adverse environmental impact and demonstrates pollution prevention.

Charity Policy

This season will see Bolton Wanderers strengthen its charitable support by channelling resources and support into one local charity and one national charity with a Bolton branch.

Bolton Wanderers will make a year-long partnership with the two charities in order to support them in maximising opportunities to raise awareness of their work and help to raise funds. The charities will be decided upon through a nomination process. Submissions have been received from both local and national charities involved in work with children and young people, and/or issues of poverty, ethnicity and challenging illnesses.

In addition to the two charity partners there will also be an opportunity for local charities to apply to be an associate charity for the season. This will see three charities receive a Bolton Wanderers merchandise package that can be used by the charity to support their fundraising efforts.

For more information regarding the charity policy please visit [click here](#) or contact Head of Trust Phil Mason on pmason@bwfc.co.uk.
